1. The proposed project involves the subdivision of a 30,163 square foot lot into three parcels. The three resulting parcels would range from 9,239 - 9,288 net square feet of lot area each and are proposed to be developed with three one-story single-family residences ranging in size from 2,995 - 3,060 net square feet including the attached garage. Parcel 1 will have the required street frontage with Parcels 2 and 3 being interior lots with access via a 16-foot wide driveway along the eastern property line. The proposal includes the demolition of all existing structures on site, including the existing 1,681 square foot single-family residence, and approximately 803 cubic yards of grading (207 cubic yards of import). All site drainage would direct surface runoff towards Santa Rosa Avenue via storm drains and swales, and include on-site detention structures. Planning Commission approved the following discretionary applications: A Tentative Subdivision Map to allow the division of one parcel into three lots (SBMC §27.07); A Public Street Waiver to allow the approval of a subdivision where access is provided by a private road that serves more than two lots (SBMC §22.60.300); Two Modifications to allow the
